An additional reward of TWENTY-FIVE DOLLARS will be paid for information that will lead to the conviction of any person harboning said negro. JERE. J. KING. Aug. 2, 1860 .- 49-tf

GREAT IMPROVEMENT. HAVING been engaged in Mill building for the most of the time for the last twelve years, I have invented a WATER WHEEL

which is durable, and at the same time simple in its construction, and capable of doing more work, with less water, than any other Wheel now in use. It is suited to Grist, Saw Mills, Cotton Gins, and any other machinery that may be attached. This Wheel commands the admiration of every one who has witnessed its performance, and is suited to any location, high or low head of water, and will grind from siz to twenty bushels of corn per hour, without any gearing or belts to get out of order, and loss of time in repairing; and yet so cheap as to place it within the reach of every one

who can have a Mill of any kind. I am now prepared to furnish Wheels and put them in operation, and fill orders in my line of business. I put up Grist Mills to clean the grain of all dirt, trash and chaft, and grind nothing but the grain-Saw Mills, straight and circular saws on the most improved plans-Cotton Gins, with an improved gearing that is simple, durable, and works with more ease than any now in use; and all other machinery that may be wanted. All work put up durable and in a neat style, and guaran-

teed to give satisfaction. I might give a long list of certificates, but my work will recommend itself. Any one wanting anything in my line of business will do well to address the subscriber at Magnolia, N. C. REFERS TO-P. Murphy, W. K. Cromartie, L. G. Bass, and J. A. PARKER. James Murphy, Esqrs. March 14th, 1861.

Dr. WILL, D. SOMERS, HAVING PREPARED HIMSELF TO MEET THE VA-rious exigencies of his profession, and permanently lo-cated at Lillington, N. C., tenders his services to the citioperation, at which can be obtained any of the follow-
